1.1 Letter to Board of Management

Dear Chairperson,

My name is Gene Dalton and I am a primary school teacher researching new ways to teach Gaeilge in primary schools using technology. I am hoping to facilitate an exciting short project in your school. This project is part of my Irish Research Council funded PhD project in the School of Education, Trinity College Dublin. The project focuses on children learning Gaeilge in a purpose-built, private and secure online three-dimensional virtual environment (3D VE), similar to a computer game. Children will be taking part in group lessons and activities in this environment for 30 minutes a day, three times a week in May 2015. I will come into the school to facilitate the project, which will take place during the normal school day, in the presence of the class teacher. Participation is voluntary, and consent will be sought from participating children and their parents. During this project, children will be working in groups to use their Irish to solve a mystery together in the online game. Participation should be enjoyable for the children and they will develop new skills as they face the challenges presented to them in the game, which is secure and inaccessible to unauthorised users. Primary school children have responded very positively to pilot studies of this approach, and I hope the children at your school will enjoy and benefit from the experience.

For the purposes of my research, I will be collecting the following data during the project: questionnaires on children’s attitudes to Gaeilge and the project; three written assessments of each child’s language ability; audio recording of children’s group work (this will be transcribed); copies of children’s work and text chat in the 3D VE; optional – photographs of children working at the computer may be taken if consent is obtained and short interviews with the children at the end of the project to hear their feedback and suggestions for improvement.

This research has been approved by the TCD School of Education Ethics Board, and will be carried out in strict adherence to their ethical guidelines. In line with these guidelines, I am fully Garda vetted, both by the Teaching Council and by Trinity College Dublin. All children’s work will be saved in an anonymised form. The data collected will be used to explore the children’s use of Gaeilge throughout the project and to assess how well the 3D VE worked as an environment for collaborative activities through Gaeilge. The results will be analysed in my PhD thesis and may also be published and presented at conferences.

If you have any questions about this research or need further information or clarification, please don’t hesitate to contact me at daltonge@tcd.ie. I look forward to facilitating this project in your school in May and I sincerely thank you for your assistance and co-operation,

Kind regards,

1.2 Information Letter to Parents

Dear Parent,

My name is Gene Dalton and I am a primary school teacher researching new ways to teach Gaeilge in primary school using technology. I am facilitating an exciting short project in your child’s class at school using technology to teach Gaeilge, and I would like to invite your child to participate. This project is part of my Irish Research Council funded PhD project in the School of Education, Trinity College Dublin. The project focuses on children learning Gaeilge in a purpose-built, private and secure online three-dimensional virtual environment (3D VE), similar to a computer game. Children will be taking part in group lessons and activities in this environment for 30 minutes a day over a two week period in March 2015. This will take place at school, with the class teacher during the normal school day. Participation is voluntary, and your child may withdraw at any time, if you or your child so decide.

If you consent to your child’s participation, they will be working online in groups with children from their own school and a partner school to use their Irish to solve a mystery together in the 3D VE. Participation should be enjoyable for your child and they will develop new skills as they face the challenges presented to them in the 3D VE. Their progress will be continuously monitored and help will be available to them if they need it. The private, secure 3D VE has been custom built for this research and is inaccessible to unauthorised users. Primary school children have responded very positively to pilot studies of this approach, and I hope your child will enjoy and benefit from the experience.

For the purposes of my research, I will be collecting the following data during the project:

- Questionnaires on children’s attitudes to Gaeilge and the project
- Three written assessments of each child’s language ability
- Audio recording of children’s group work (this will be transcribed)
- Copies of children’s work and text chat in the 3D VE
- Optional – photographs of your child at the computer may be taken if consent is given

All children’s work will be saved in an anonymised form. The original recordings and all copies will be available only to myself and will be kept in a secure location. The data collected will be used to explore the children’s use of Gaeilge throughout the project and to assess how well the 3D VE worked as an environment for collaborative activities through Gaeilge. The results will be analysed in my PhD thesis and may also be published and presented at conferences.

If you have any questions about this research or need further information or clarification, please don’t hesitate to contact me at daltonge@tcd.ie or Dr Ann Devitt, the supervisor of this research at devittan@tcd.ie. I look forward to working with your child in March and I sincerely thank you for your assistance and co-operation.

Kind regards,

1.4 Information Letter to Children

Dear Pupil,

My name is Ms. Dalton, and I’m a primary school teacher researching how to make it easier and more fun for children to learn Irish in school. I’ve made an online game for learning Irish, a bit like the computer games you might play outside of school, but not as advanced. You are invited to try this out for two weeks to see if this would be a good way for primary school children to learn Irish. The project will be taking place in your school, during the normal school day for about 30 mins each day. You don’t have to take part if you don’t want to, it’s up to you.

If you decide to take part, you will be working in groups to solve a mystery together in the online game. You will have to travel around, look for clues and talk about your ideas for solving the mystery. You are encouraged to use as much Irish as you can. It doesn’t matter if you make mistakes – the important thing is that you try to use this opportunity to have fun while speaking Irish. Don’t worry that it will be too hard – all of your team will be helping each other and your teacher will be there to help if you get stuck.

I will come to your school before the project starts and give you some questionnaires where you can tell me all about your thoughts and feelings about learning Irish. I will also be giving you a little Irish quiz before and after the project to see what Irish you need to learn and what Irish you learned during the project. When you are busy working together in the online game, I am going to save all your work and also record some audio of your groupwork as you talk together about how to solve the mystery. This is so I can see how you are using Irish throughout the project. Afterwards I will ask you to tell me what you thought of the project by giving you a questionnaire to fill in so that you can let me know what you enjoyed and what I could improve on for next time.

Your help is very important as I want to use the results to help find new and creative ways for children to speak and learn Irish. I will use the results I get as part of the studies I’m doing in Trinity College Dublin and I also want to tell other people about the results by presenting them at conferences or by writing articles about teaching and learning languages.

Have a chat with your Mum or Dad about this, and if there’s anything you’re not sure about you can ask them to send me an email or you can talk to me when I come back into school again. If you want to take part, please fill in the Child Consent form and give it to your teacher, and ask your Mum or Dad to fill in their consent form and bring it back in as soon as you can.

Thanks for your help,

1 Learning Irish is a waste of time.

It is important to me to improve my Irish because it will make me feel more at home with people who speak Irish.

2 Compared to subjects like Maths and English reading, I don't like Irish very much.

3 During the Irish lesson I put my hand up to answer very often.

4 My parents try to help me with my Irish.

5 I hate learning Irish.

I always feel that the rest of the pupils in my class are better at speaking Irish than I am.

6 My parents feel that because we live in Ireland, I should study Irish.

7 If I visited the Gaeltacht, I would be able to look for and follow directions to make my way.

8 My parents feel that it is important that I work hard at Irish until I finish school.
I don't feel sure of myself when I am speaking out loud in Irish during the lesson.

I often think about what I have learned in my Irish lesson when the day is over.

People who speak Irish help to make the Irish way of life special and different from other countries.

If there were Irish-speaking families living near me, I would like to speak Irish to them.

If there was a chance to speak Irish outside of school, I would like to try speaking it.

If Ireland lost the Irish language and the Irish way of life, it would really be a great loss.

Some of the best people in Ireland are Irish speakers.

It is important for me to improve my Irish because it will help me to read Irish books and to understand Irish songs, stories and television programmes.

Learning Irish is important for me because it will allow me to meet and talk to different kinds of people.

It embarrasses me to put up my hand and say something aloud during the
Irish lesson.

I don't go to too much trouble with my Irish homework.

I get nervous and mixed up when I am speaking in my Irish class.

Irish is an important school subject.

To be honest, I don't really try very hard to learn Irish at school.

The time I spend learning Irish, I would rather spend on other subjects.

People in our country who only speak English should try harder to learn
the Irish language.

By the time I finish school, I will be able to speak Irish quite well.

</tr>
<tr>
<td>GATT6</td>
<td>Well I thought it was good because other children don’t really like Irish and writing and stuff like that and a lot of people play games so it was a good idea to have a game that is done in Irish. So you learn a lot more because you are playing.</td>

</tr>
<tr>
<td>GATT14</td>
<td>Well you need to learn different languages, you need to know your own language to speak the other languages you are learning because if someone just comes up to you “ Dia duit” like you don’t have a clue so you have to ask in English or whatever language, to ask what that means and then you learn that.</td>

| F1 | **And why do you say it is a good idea Mark?**  
Because I like games. I play a lot in my spare time.  
**Yeah, yeah, so you play games at home, do you?**  
Yeah, I literally live on games. |
| F2 | **What do you think of the idea of using a computer game to learn Irish?**  
I think it is really good because some kids love like iPad and computers and well it is  
a better way to learn Irish because some people think it is boring just listening to Bun go Barr.  
It is a bit different compared to just like normal Irish.  
It is fun that is it better that you are able to play a game, not just talk…like you are  
able to send messages to other people and they can help you with the game and.. |
| F3 | **What made you feel like “I want to use Irish” for this?**  
Just points. (made me want to use Irish)  
**Just the points. Anything else?**  
Well I thought it was fun when it was in Irish. |
| F4 | Well I thought it was good because other children don’t really like Irish and writing  
and stuff like that and a lot of people play games so it was a good idea to have a  
game that is done in Irish. So you learn a lot more because you are playing. |
| F5 | And at the time you went on the computer you had to answer questions and it was  
really fun.  
I thought it was funner than all the other books because I didn’t really like the books  
like. I thought it was kind of boring but I thought that the laptop was really fun. |
| F6 | It did because you get prizes then like the trophy and all that, and instead of getting  
frustrated in the book and Miss has to send you out of the classroom. So it was really  
fun that way and you didn’t have to get sent out of the classroom. |
| F7 | I think that we work a lot better and you learn a lot because you are actually doing it  
for something that you are doing and get points and have fun. |
| F8 | So like real time it goes up, like it is fifty then it is hundred and then you have goals  
to get. Like you have goals to work for. So I thought that was fun. |
| F9 | **Irish speaking, reading, writing, listening, which of those do you think it might have helped with?**  
My reading because I wasn’t really good at my reading and writing in Irish, but then  
I was having fun on the laptop and I thought it was actually really good. It helped me  
because of all the missions and everything. You know, the way the words; the  
English of them; I thought that was an easier way to do them. |
| F10 | **It really helped, great. Luke?**  
I am not that good at Irish but my friends helped me along the way and it is just  
really good fun when you… after running around and you come in and sit down at  
the computer after break and it is just really fun, and I was surprised… like you said  
we are the first children to test the game out for you and it was a really good game. |
| F11 | I think it’s good because the kids will have used computers and they love playing  
games and it’s still really fun in Irish because it's a detective game.  
Like it’s different to learn Irish on a laptop because you are always learning out of a |
book, so it’s fun and different to use a computer. It’s easier to learn on something that is a bit more funner than doing it in a book all the time.

F12 I am not very good at Irish in the book because when you learn Irish out of a book you forget it and then on a computer game you can just…..like you can write down the stuff and then you can find it the next day. It’s just fun learning.

F13 loved the game and everything and it is good but I think it is just the motivation tool, but like you still get prizes and it is all good, I am just saying… **Yeah, so you think the points and everything is just a motivational tool?** Yeah. **Yeah, ok. Did it work for you?** Yeah.
| AL1 | And do you think…?  
I think it was better that it was a mystery game because you learn more if it is a mystery because you have to find out more words.  
Right, yeah. |
|-----|-------------------------------------------------|
| AL2 | Usually we are just reading off a page and we have to find out questions and then... but like is like clues every week and things and we had to try and find out.  
So you had to try and find out things yourselves?  
Yeah, you had to look places like the aérfort and in like the house and all and stuff like tha |
| AL3 | Is that similar to how you normally use Irish in school?  
No.  
In what way?  
Like there is one way when you are on the computer and you are only reading off a Bun go Barr, but when you are on the game you are able to move around and talk to each other like. |
| AL4 | …ways that it might be different from the way you normally use Irish in school?  
Normally it is just stories and then like people thinking “Oh I want to go there” but in the game you can actually do it.  
Yeah, ok.  
Because you can go through the portals.  
Yeah, I’m the same |
| AL5 | Any other ways?  
Well if you are on a book like it just tells you a question and you have to read through it, but you have to find stuff and you have to find like mysteries and pictures and other things.  
So finding stuff, reading. Anything else?  
Writing. |
| AL6 | …used Irish in this project and the way you would normally use Irish in school?  
As everyone said it is different as the books like, and it is more exciting because you have to find the clues and all and it builds up to the who did it, the mystery. |
| AL7 | It is good because if you are in a workbook, you say ”Ah, Miss, why do we have to do Irish?!” but it's good in the game because you get to move around a lot and stuff, you have another person and like you are working yourself and… |
| AL8 | So you get to move around, you have another person and yourself.  
Yeah, and you have to like go to different dimensions and look at words and find out the mysteries and it was better than writing because you are just writing out stuff but you have to find it. |
| AL9 | and then you’d focus for like ten minutes on looking at what it means.  
Okay….  
And then on the computer it’s just like, right.....whatever whatever means…..  
I just have a peek at the sheet and see what that means. |
**Different Missions**

...different missions you did; some of them were easy, some of them were hard, and then some of them were really hard; which did you prefer and which made you kind of most motivated? Who would like to go first?  
Well...  
Philip...  
I really got frustrated but it kind of motivated me as well. (by challenging tasks)  
**So you got frustrated when they were hard, was it?**  
Yeah, but it motivated me to like keep going because I didn’t want to just give up.

**Balancing Missions**

So it might have been tricky to get the balance right between not making it too hard so it was frustrating, and just making it hard enough?  
Yeah. With the hard levels and all that, my team and me got very stressed out if it was like very hard. Like (10.09) kind of stuff, and so yeah we got stressed out a lot but we managed to do it.  
**You managed... and how did you feel about it when it was really hard?**  
When I completed it it felt good, but when it was like in the middle I was like “What is next?”

**Difficult Missions**

Yeah, ok. John?  
I thought that if I just did the easy ones then I would still get the points, but the harder ones like they were much harder to do...  
Well they are called hard ones…  
**But did you want to work hard at them or did you want to give up because they were too hard?**  
I did want to try and give up at the same time.

**Easy Missions**

Olivia?  
I think that you know the way the first time there was like… it was kind of hard for everybody the first day, and then you made it easier.  
Yeah.

**Prefer Easy or Hard?**

**Did you prefer it they were easy or hard?**  
Hard, because then you have to push yourself. (preferred hard) [Anna]  
Yeah.  
Easy. (preferred easy tasks) [Ryan]  
**Why did you prefer them easy Ryan?**  
Because it was easy to complete them.  
**And if they were hard, how did you feel?**  
Well I would still be able to do them but…  
**It wasn’t as good?**  
No.  
**Did you prefer them easy or hard Seán?**  
Easy.(preferred easy tasks)

**Type of Mission**

**Which type of mission did you prefer? Easy or hard and why?**  
The really hard ones because it was difficult and it gets you on the move. [Luke]  
**Yeah, so you had to push yourself. Stephen, what did you prefer?**  
Well I prefer like the hard because like it is more of… you have to be up for it. But
the only way to get to the hard is by learning by the easy and then the medium. [Stephen]

**Ok, so you have to work your way up?**
So I enjoyed all of them.

**You had to work your way up.**
It was like hard and easy and then it is easy and it gets harder and medium then. It is medium really. [Stephen]
I worked from easy to very hard because I just wanted to try out every level and how hard it was. [Peter]

C7 **And how did you feel when they were hard? Did it make you want to try harder or did you find that you wanted to give up because it was too hard?**
I was in the middle, I wanted to give up but at the same time I didn’t. [Peter]
**You didn’t give up? You wanted to keep trying.**
So that filled me with pressure as well [Peter]

C8 **How did you feel about the missions, did you prefer them to be easy, did you prefer them to be hard?**
Well I’d like a challenge, but sometimes the challenge can be really difficult. And I do prefer them to be harder because you get better at Irish if they were harder, because if they were easy you’d already know the words and you wouldn’t really be able to learn them.
**So you liked the challenge?**
Yeah.
When you see a hard mission, you are like, okay, let’s do this!
**So that motivates you to work harder?**
Yeah.
The harder missions…..
It depends what mood you are in? Sometimes….what was it like for you Kevin? Um…..usually it is hard and sometimes just wanted to do the easy ones
**Yeah….and did you find if it was too hard and you really didn’t know what to do, how did you feel then?**
Oh I was like, oh no….before I had a bad thought I just text chatted the others? They might give you a little clue and then I’d kind of know what I was doing.

C9 **How about you Laura? Did you find it easy or hard?**
I’d find them hard. Just what Caroline said, you’d learn more as it gets harder.
**So when it was hard you wanted to work hard to get it, did you?**
| MOTC1  | **What do you think of the idea of using a computer game to learn Irish?**  
It is great.  
Yeah, it is alright. It is a good idea.  
It is better than books.  
It is much better than books, much better than having to go to the back of the book to check the spelling and go back and write it down and it is much easier. |
| MOTC2  | I usually find it is better, like if it is… they focus more on the computer than they would on a book. Everybody would.  
And by 'they' you mean us?  
Everybody, yeah.  
Well I think it is a good idea because you don’t really care, you don’t really have to write down anything, you can just type it onto the computer. It is much easier. |
| MOTC3  | **And why do you say it is a good idea Mark?**  
Because I like games. I play a lot in my spare time. |
| MOTC4  | We were writing it down.  
*Yeah.*  
We were reading it.  
We were kind of… we were writing on a page and we were doing it on the computer. So it was better.  
And we were listening to it.  
*Yeah, and were you talking to each other?*  
Yeah |
| MOTC5  | **what do you think of the idea of using a computer game to learn Irish?**  
I think it is really good because some kids love like iPad and computers and well it is a better way to learn Irish because some people think it is boring just listening to Bun go Barr.  
It is a bit different compared to just like normal Irish.  
It is fun that is it better that you are able to play a game |
| MOTC6  | **Is that similar to how you normally use Irish in school?**  
No.  
*In what way?*  
Like there is one way when you are on the computer and you are only reading off a Bun go Barr, but when you are on the game you are able to move around and talk to each other like. |
| MOTC7  | **Any other ways that it might be different from the way you normally use Irish in school?**  
Normally it is just stories and then like people thinking “Oh I want to go there” but in the game you can actually do it.  
So you learn a lot more because you are playing.  
*Because you are playing, yeah.*  
I thought it was good, rather than just having books and it was something different.  
*Something different, yeah.*  
And at the time you went on the computer you had to answer questions and it was |
really fun.
I thought it was funner than all the other books because I didn’t really like the books like. I thought it was kind of boring but I thought that the laptop was really fun.

| MOTC8  | I liked it because usually people just use books for things and it is a great change using laptops instead of books. That is good. |
| MOTC9  | I am grateful; like Maria said; we are able to go on to the computer instead of all twisting and turning with book and copies and we are the first kids to try it and test it and see how it is done; if it was negative, our goals were positive, and it is the exact same thing nearly as a book but better. |
| MOTC10 | As everyone said it is different as the books like, and it is more exciting because you have to find the clues and all and it builds up to the who did it, the mystery. |
| MOTC11 | It is better… it is just a lot better than sticking your head in a book and writing and your hand gets tired and where you get actually muscles in your fingers from typing. |
| MOTC12 | It is good because if you are in a workbook, you say "Ah, Miss, why do we have to do Irish?!" but it's good in the game because you get to move around a lot and stuff, you have another person and like you are working yourself and… … Yeah, and you have to like go to different dimensions and look at words and find out the mysteries and it was better than writing because you are just writing out stuff but you have to find it. |
| MOTC13 | It kind of just changes it, because like it was usually boring with the books but when you came in then and you said we were going to be doing it on laptops and I said yes and I was just excited because it is different... |
| MOTC14 | As Stephen said, it is... you are just like "Oh Miss, it is boring", whether with this it is like something new, and it is like “Yes! Computers!” |
| MOTC15 | On the first day you came in we were like “O h this is going to be boring and books”… you were going to give us new books and all that, but then you brought laptops in and you set them up for us and we were like “Oh yes! “And we knew it was something different from books where we are stuck in our book all day, and that was an Irish thing. |
| MOTC16 | **what do you think of the idea of using a computer game to learn Irish?**

I think it’s good because the kids will have used computers and they love playing games and it’s still really fun in Irish because it's a detective game.

Like it’s different to learn Irish on a laptop because you are always learning out of a book, so it’s fun and different to use a computer.

It’s easier to learn on something that is a bit more funner than doing it in a book all the time.

With computer games.. they're more interesting and you can learn faster |
| MOTC17 | I am not very good at Irish in the book because when you learn Irish out of a book you forget it and then on a computer game you can just…..like you can write down the stuff and then you can find it the next day. It’s just fun learning. |
We’d say a sentence and we’d go through it in English and then we’d keep on….like I think it’s easier on the laptop.

It’s easier on the laptop because in a book you’d read one sentence and then you’d focus for like ten minutes on looking at what it means.

**Okay....**

And then on the computer it’s just like, right.....whatever whatever means..... I just have a peek at the sheet and see what that means.
| REW1    | Yeah, and were you talking to each other?  
|         | Yeah, we had to talk in Irish to get points. |
| REW2    | What kind of really made you use it?  
|         | It was a game  
|         | To know that you would get an award for speaking Irish than to just be taught to speak it and then not. |
| REW3    | I loved the game and everything and it is good but I think it is just the motivation tool, but like you still get prizes and it is all good, I am just saying…  
|         | Yeah, so you think the points and everything is just a motivational tool?  
|         | Yeah.  
|         | Yeah, ok. Did it work for you?  
|         | Yeah. |
| REW4    | The first thing that motivated me when we were leading on the last day, when the second last week I think it was, when I got the Réalt an lae, that motivated me. And then we won the thing… |
| REW5    | But how did you find the points and the leader board in general John? Did you find it made you motivated or did it…?  
|         | Well yeah, it motivated me more. |
| REW6    | ? What encouraged you to use Irish?  
|         | Points. (encouraged to use Irish)  
|         | Points. |
| REW7    | What made you feel like “I want to use Irish” for this?  
|         | Just points. |
| REW8    | I just wanted to win, that is all I wanted to do.  
|         | **You wanted to win. Anyone else?**  
|         | When my team was at the bottom it kind of forced me that we had to do better.  
|         | **Ok, so you wanted to work harder because you needed to do better?**  
|         | And even when we were in the lead I thought if they come back at us that we…  
|         | You still need to work hard.  
|         | **So you were motivated by that? How about you Anna?**  
|         | Yeah, when we were winning and a team got in front of us I said to my partner “We have to do this” and but we were trying to get the trophy … |
| REW9    | Now do you think that this game helped you with your Irish?

| REW18 | **So when you were there, what really made you use Irish rather than English?**
Well the fact that you could get points and you just mean that you actually were kind of good at Irish. |
|-------|--------------------------------------------------------------------------------------------------------------------------------|
| REW19 | **So when you were there, what really made you use Irish rather than English?**
Well the fact that you could get points and you just mean that you actually were kind of good at Irish. |
| REW20 | **you already said that earned you points and then people encouraged you to use Irish.**
Your team members really motivated you and getting the réalt an lae… |
| REW21 | I thought it motivated me a lot say when you were up on the leader boards. Just say you were second place, maybe if I try harder the next time I might be up at the top.

**Yeah**

You look at the leader board and okay, I am say third, okay I am going to work really hard now to get second or first and come on we can do this…..

…. If I wasn't in first or second I was like, ok, I need to get as much work as I can, give me the sheet, give me the sheet

**Yeah…you want to work harder, yeah.**

Come on, come on, and let’s get this started. I want to get to first. |
| REW22 | **Did you ever feel kind of discouraged looking at the leader board and think, ah, it’s too far to climb or….?**
The first time I saw the leader board and we were like third/fourth and it was like, okay, that’s just awful, you have to work harder. So yeah, it was only really the one time.

**Anyone else?**

Yeah, we were about 200 points behind and we thought oh no we're not going to catch up, then I think we came third or second...

**Yeah, yeah…..anything else there?**

And then when we got higher on the leader board, we were just like……it finally paid off! |
| REW23 | *it was a really hard mission. We were just like together and like, okay, we are* |
going to do this.

You were really motivated.
We were going to get to the top of the leader board.

Really pushing each other and encouraging each other.
But then like when someone said, we can’t do this and the rest of us were like…come on! We can do this.

</tbody>
</table>
**TEAM11** | **Did it make you want to work harder?**  
Yeah, it just really did… because I wanted to help my partner and get more points and stuff and then learn a lot of Irish on the way.  

**TEAM12** | I thought it kind of got me to do something because like usually like Irish you can be doing anything and it would take you ages to do it, but then everybody… I kind of got caught up to everybody. It was fun though.  

**TEAM13** | **How did your teams work together? We will start with Karen.**  
I think my team did really good because we all helped each other, because if I didn’t know a word I text chatted my other tea. You see I asked like the partner beside me and if she didn’t know I would ask my other team on the chat, and then they would help me.  

**TEAM14** | **Anyone else want to talk about their team? Stephen?**  
Well like I am a good friend of Ryan… like Ryan is a good friend to me and I just felt like he could really help me because like he is a lot smarter than I am and he really helped me a lot.  
So it was good working together?  
Yeah, he was reading out the thing and I was like playing and then we both found who the people were. I found out one and he found out the other.  

**TEAM15** | The day of the cake bake sale I was working alone and it was really hard for me because I didn’t have any partner or anyone to talk to.  
**And did that make you realise how much better it was when you had a team mate?**  
Yeah.  
**Yeah.**  
It was a lot better when I had my own team.  

**TEAM16** | **And how did you get on with your partner Laura? Did you work well together?**  
Yeah, I thought she was a good partner for me because she knew all the translations. The ones even that weren’t underlined, there was some hard ones of them too. So she…  
**She had good Irish, did she?**  
Yeah.  

**TEAM17** | **How about you? Luke, tell me about your team work?**  
They were brilliant the other team that we were with and Laura knew all the
answers and even though they were underlined, she knew them like that and the first day we were like “What do we do?” and then the second day we were like “That is snap”.

TEAM18 Getting the points really motivated you... trying to get as much points as you can .....encouragement is good to get the points and the other people, the other team telling you what to do.

And do you think.....some of your friends on the different teams, were they encouraging
Yeah, definitely.
Yeah, everyone was like, come on....like and all this.

TEAM19 Your team members really motivated you and getting the réalta an lae, that really like..
It motivated me as well that when everyone in the … and everyone speaking Irish, I wanted to try speaking the Irish they were using as well.
Brilliant.
It would give you ideas….say like how to say stuff.

TEAM20 ...and you really didn’t know what to do, how did you feel then?
Oh I was like, oh no….before I had a bad thought I just text chatted the others? They might give you a little clue and then I’d kind of know what I was doing.

TEAM21 Our team, I think we really worked well like together. So when we were doing….when we were say when we were reading the report in the airport, you are like….okay, do you know what this means and like….I think we worked really well on figuring out stuff, figuring out problems and the HQ.....so...

TEAM22 Yeah….I worked really hard. I thought it was really good. But we worked really well but it was when we had to match the report to the picture and then me and Caroline were in HQ we kind of found it easier to do it in HQ.
The team worked well together and it was…..it just…..it was a really hard mission. We were just like together and like, okay, we are going to do this.
You were really motivated.
We were going to get to the top of the leader board.
Really pushing each other and encouraging each other.
But then like when someone said, we can’t do this and the rest of us were like…come on! We can do this.
| TEAM23 | **How did you get over it [demotivation of feeling it’s too hard]?**  
I just….we worked as a team together and we just did it.  
**Yeah, and you got over that feeling.**  
Like just, go for it and if we come out bad we can try again the next time. |
**NEG1**
Well my team, we didn’t really work well because me and Peter were always like “Oh yeah, I will type this time and you write down, and then you write down and I type” but you see we didn’t really go well… it just didn’t really work.

**It didn’t really work?**
And then with Simon and Kevin, I would say they were the same. So it was literally just me and Kevin, because we were just saying “Yeah, let's get this finished” and then we would kind of just let Simon and Peter share with us.

**NEG2**
Yeah, how about you Mark? How did your team work together?
I don’t like… I didn’t really like the team kind of thing. It was just…

Yeah, because some people kept telling people that…

Yeah, they were like… one time I was just like Sarah was writing something and I was just like moving around. She was telling me to stop, she was really bossy and I didn’t like it. I didn’t like my team. While the other team… my other two…

**Team mates.**
Were ok.

**NEG3**
Yeah, how about you Philip?
Well I am really independent… well everybody… me, Seán and Luke… we didn’t really…

**So you are used to doing…**
We did sometimes but…

**Yeah.**
Sometimes when you are told to do independent work you want to do it as a group, but when you are doing group work you want to do it independently.

**You want to do it on your own?**
Yeah, I like doing it independently.

**NEG4**
John?
I was like most of the time I was just moving around. Em, my team mate wouldn’t touch the…she just wouldn’t let me do it because she wanted to do something and I wanted to do something and I was just on text chat most of the time as well and she kept giving out to me and she didn’t do anything. So she basically got to do everything the whole time and I never got to do anything on it, so…

**NEG5**
…to send messages to other people and they can help you with the game and..
Yeah, but the messages were annoying. Some people were saying they were annoying voice messages.

**NEG6**
In what way do you think it is different? It is just I don’t think it is that fair because I think it is a bit cheating.

**You think it is cheating?**
Yeah.

**In what way?**
Just that you should find the answers yourself. Like you do it in the game but you get what is ahead for you. Like normal Irish you can’t get anything in the future.

**NEG16**

It was a lot better when I had my own team.

**NEG18**

I thought Philip would work a bit harder because some of the time he was just kind of giving up, he was just like… and just sat there and he didn’t really do much. At some points he just kind of gave up and didn’t work.

**NEG19**  
**Did you feel good about that?**  
Yeah.  
It just made me work harder but at the same time it filled me with pressure.

Yeah, I felt very worried but then we caught up on the leader board.

**NEG20**  
**Did it make you want to try harder or did you find that you wanted to give up because it was too hard?**  
I was in the middle, I wanted to give up but at the same time I didn’t.

So that filled me with pressure as well.

**NEG21**  
Yeah. With the hard levels and all that, my team and me got very stressed out if it was like very hard. Like … kind of stuff, and so yeah we got stressed out a lot but we managed to do it.

When I completed it it felt good, but when it was like in the middle I was like “What is next?”

**NEG22**

I really got frustrated but it kind of motivated me as well. (by challenging tasks)

Yeah, but it motivated me to like keep going because I didn’t want to just give up.

I knew I wouldn’t be able to win since we lost the sheet and we were way behind everyone else. I just knew…

| AI1 | …just talking Irish with me or with your classmates, would you feel any different?  
Yeah, I would feel confident. (using Irish now)  
More confident now because you got the practice using it?  
Yeah. |
| AI2 | And did you feel any different?  
I felt better like. Because I was able to use the words after all the stuff that we went through.  
Did you feel more confident?  
I did, yeah. A lot more confident |
| AI3 | Did you feel more confident?  
I did, yeah. A lot more confident because I was like… I didn’t know a few words and then people would have to say them and I was just like “Oh God”.  
Feeling stressed?  
Yeah.  
Yeah, Maria?  
I felt more confident and as Stephen said I felt embarrassed as well before because like you were just saying out words and you wouldn’t know what they mean.  
So you feel better about it now??  
Yeah. But now I know how to say a sentence.  
Yeah, brilliant.  
Just like Stephen I wouldn’t be embarrassed, I would have been really embarrassed  
And why would you have been really embarrassed?  
Because I wouldn’t know a word and like everybody else would know it.  
Yeah, and do you feel a bit better now?  
Yeah, I feel a lot better now. (about using Irish) |
| AI4 | How do you feel now about using Irish? Do you feel any different about it?  
I feel that I could... it is easier, and it is like I could say things more clearly and then have a conversation in Irish.  
Yeah.  
Like what I said again, it improved me a small bit but I feel better about Irish.  
What do you mean you feel better?  
Like I feel better, I can pronounce stuff |
| AI5 | Yeah. Anyone else?  
It is just nearly like Winchester all over the place. People in London don’t even know how to speak Irish and it would be good if you brought the game there and teach them Irish.  
Very good. |
| AI6 | You showed how much Irish means to us.  
Wow, that is a great thing and what do you mean exactly Stephen?  
We weren’t really fond of Irish and all our teachers were and we were really like hoping like to speak it because it is weird and it just sounds cool and we learnt a lot from the computers and… |
| A17 | **What motivated you to use Irish, Stephen?**  
Well you need to learn different languages, you need to know your own language to speak the other languages you are learning because if someone just comes up to you “Dia duit” like you don’t have a clue so you have to ask in English or whatever language, to ask what that means and then you learn that.  
**So it made you want to use Irish?**  
Yeah. |
| A18 | **How do you feel now about using Irish? Do you feel any different than at the start?**  
Well I feel less embarrassed because I used to be embarrassed if I didn’t know the words and what this means and stuff.  
**So do you feel more confident?**  
Yeah. I feel a lot more confident. |
| A19 | **So when you were there, what really made you use Irish rather than English?**  
Well the fact that you could get points and you just mean that you actually were kind of good at Irish.  
And it didn’t matter if you get it wrong, you just know I will get that right now the next day.  
Yeah. |
| A110 | **How do you feel about speaking Irish, do you feel any different about speaking it?**  
I feel more comfortable. [speaking Irish]  
**You feel more comfortable. Kevin you feel?**  
I feel a lot better at it. [speaking Irish]  
Yeah.  
I find it easier as well. [speaking Irish]  
I find it easier, more comfortable kind of like when I speak English now because it’s so much easier.  
**So just, does it feel more natural?**  
Yeah, it comes to me more naturally, say when I am speaking Irish….I speak Irish at home sometimes... trying to get my my Mam... and I would be like..... I learned this with Gene now, so I can..  
**Yeah, and I suppose you mentioned there, it’s a bit maybe like the way you use English Caroline, that it’s a language, so you are just using it, like a language.**  
It’s like a second language to you. You just….. |
IL1  Do you think it helped you to learn Irish?
Definitely.
I am not very good at Irish in the book because when you learn Irish out of a book you forget it and then on a computer game you can just…..like you can write down the stuff and then you can find it the next day. It’s just fun learning.
Yeah….I never knew like half the stuff I know….yeah.
And do you think did it help you with your speaking Irish, with reading Irish, with writing, with listening, which did it help you with?
I think it helped me with all of those things [speaking, reading, writing, listening] because I was able to pronounce stuff better than…..I was before.
Yeah and when I was typing stuff down and then when I was like doing text chat, I knew what they meant and I probably didn’t know them before.
Okay, very good.
I’d say reading and writing, I learned a lot more...
It helped me with all of them [speaking, reading, writing, listening], especially understanding the Irish as well, because like I’d look at a word and be like, what does that mean? And like then it would come up again and like ah yeah I know what that means…..

IL2  …taking part in this game; do you think it helped you with your Irish?
Yeah.
A little bit. I knew most of the easy words and now I know a few more words because I didn’t know what man was; and that is probably really easy like. It is fir and now I know that gun is gunna. I know more than I did…
And all people and what like an airplane was. I didn’t know that…
I know a couple more words now thanks to the game.
Yeah.
Yes, it is helping me with Irish. I didn’t really know that much but I know a couple more words now thanks to the game.
Yeah.
Yes, it is helping me with Irish. I didn’t really know that much but now I know a bit more.
Yeah, and do you think did it help you with your reading, with your writing, with your speaking? Which of those did it help you with?
I would say reading and speaking.
Reading and speaking.
The pronunciation.

IL3  If you were to compare the way you used Irish in this project with the way you normally use Irish in school, is there any difference between them?
A small bit more improved.
That is good.
Well without… if you didn’t come to this school, on a scale of one to ten I would be around fifty but now I would say I am around eighty.
Ok, and in what way was it different?
It was different because you gave us all new words and we went over words with you and then you kind of gave us like the piggybank things and there were words on them, and we had to write out the reports and all.
Usually we are just reading off a page and we have to find out questions and then… but this is like clues every week and things and we had to try and find out.
It was actually much easier…well it kind of helped me with my Irish because we had to use chat talk to our…
Friends, and in Irish.
Yeah, the text chats.

Do you think you notice any difference in how you feel about Irish after, John?
Yeah, I mean I feel I know a lot more now.
Ok.
Than I used to.
Yeah.
And I can pronounce stuff better as well.
Ok, yeah.

Do you think playing the game… do you think it helped you with your Irish?
Yes a lot, like the way you taught us like hide and go seek and...
So you think you learnt some more Irish words?
Yeah. Really hard words. (learned)
Well

And do you think there is a difference in your Irish?
Yeah, there is a difference and I know a lot about detective stuff and stuff like that.
Yeah, yeah. How about you?
I thought it was good and it really helped me

My Irish speaking did.(improve)
Yeah, how about you Ryan?
I would say reading. (improved)

…speaking, reading, writing, listening, which of those do you think it might have helped with?
My reading because I wasn’t really good at my reading and writing in Irish, but then I was having fun on the laptop and I thought it was actually really good. It helped me because of all the missions and everything. You know, the way the words; the English of them; I thought that was an easier way to do them.
Yeah, great. Stephen?
It helped me with my reading and I didn’t really know how to read Irish that much and I didn’t really understand it, but my friend Ryan, he helped me. We were reading all of the mysteries and I learnt a lot more.
Yeah, right.
It helped me so much because I can’t really pronounce Irish words properly. So reading it really helped me.
It really helped, great. Luke?
I am not that good at Irish but my friends helped me along the way and it is just really good

I thought it helped me with my speech, like how to pronounce all the Irish words and the fact that it had an underlying like number one and number two on the bottom.
So you would find what they meant?
Yeah. So I thought that helped me with number one and number two on the bottom.
**So you would find what they meant?**
Yeah. So I thought that helped me with like detective words and that. And the same as Luke said, we are the… we are very grateful for having to be the first children to try it out.

| USE1 | Yeah, and were you talking to each other? | Yeah, we had to talk in Irish to get points.  
We did cupla ceist.  
It was actually much easier…well it kind of helped me with my Irish because we had to use chat talk to our...  
Friends, and in Irish.  
**Yeah, the text chats.** |
| USE2 | What ...really made you use [Irish]? | It was a game  
To know that you would get an award for speaking Irish than to just be taught to speak it and then not.  
The same as Philip, it is a game.  
It is kind of knowing that you are not forced to do it and you can drop out, but I didn’t.  
**Yeah.**  
But like I think that just not as many… because like even though you can’t really do the game unless you use Irish because it is all in Irish. So that is what made me do it.  
**Yeah, so you kind of … you had to use Irish?**  
Yeah. |
| USE3 | Yeah, I am not too good at Irish but that game helped me a good bit because it was a mystery and you had to try and find … you had to do Irish. Like you can’t answer in English so you have to do it in Irish. |
| USE4 | It is a bit different compared to just like normal Irish.  
It is fun that is it better that you are able to play a game, not just talk…like you are able to send messages to other people and they can help you with the game and.. |

Yeah. |
| USE6 | And did you… how about the text chat? That was another one you started. | Yeah, that was really really good. Everyone was… (text chat)  
**Now we will go to Olivia now, because she has something to say.**  
I thought the text chat was really good because if we didn’t really have a clue, like we could probably ask our partners like.  
**You could look for help?**  
Yeah, and we kind of got help from them so we kind of completed the missions by that, that text chat.  
**Really helpful?**  
Yeah.  
At first I thought it wasn’t useful because I didn’t use it, but when I used it I thought it was really really helpful (text chat). |
| USE7 | Trying to use your new words? | Yeah, and me and Ryan were trying to use the new words, and like I was texting Irish to Mark and Sarah to tell them directions, and Mark just kept on talking about |
English and I said bí ag caint Gaeilge (07.05).

| USE8 | Everyone sort of used a tiny bit in English but no one really minded and everyone texted back in Irish and more and more Irish. |
| USE9 | My friends kind of want… like they kind of got me into it like. and Caroline and John like and Anna, they started to use Irish and I kind of just talked about English for stars, but then when you held up them cards I actually started to use a bit of that. |
| USE10 | I think my team did really good because we all helped each other, because if I didn’t know a word I text chatted my other tea. You see I asked like the partner beside me and if she didn’t know I would ask my other team on the chat, and then they would help me. |
| USE11 | And when you were doing the game, what were the different ways that you were using Irish? Um….with the text chat I was using Irish a lot and you’d be reading the clues and stuff. Any other ways that you were using Irish? And talking to the.... other players and writing up the missions |
| USE12 | Talking to your partner in Irish. And when you’d be reading the mysteries…..so yeah. And by texting the other teams….. So you were using Irish by texting, by talking to your partners, by doing the reading, by doing the writing of the missions. |
| USE13 | It motivated me as well that when everyone in the.. and everyone speaking Irish, I wanted to try speaking the Irish they were using as well. Brilliant. It would give you ideas…..say like how to say stuff. |
| USE14 | Yeah, it comes to me more naturally, say when I am speaking Irish….I speak Irish at home sometimes... trying to get my my Mam... and I would be like….. I learned this with Gene now, so I can.. |
| LPO1 | I am just wondering about… do you think that your Irish speaking got a bit better or your Irish reading or your Irish writing or listening. Did any of those improve?  
No. [Seán]  
Not for you.  
My Irish speaking did.(improve)  
Yeah, how about you Ryan?  
I would say reading. (improved)  
Your reading, you think it improved. |
| LPO2 | So you think you learnt some more Irish words?  
Yeah. Really hard words. (learned)  
(No) [in background - Simon]  
Well we do that in normal Irish as well.  
And like those words you put up on the paper were really good and it helped.  
So Simon you don’t think it helped you learn Irish?  
Yeah, because my partner was cutting, he never shared and he very rarely did, so I never really got to play. |
| LPO3 | Let’s say, just talking Irish with me or with your classmates, would you feel any different?  
Yeah, I would feel confident. (using Irish now)  
More confident now because you got the practice using it?  
Yeah.  
I don’t feel that confident.[Ryan]  
Would you not? Is there any change Ryan in how you felt over the project?  
Do you feel any different about it at all?  
I know more words.  
Ok, very good. Do you feel any different?  
No.  
No. Simon did you feel any different about it?  
No.  
No, and how do you feel about it?  
I don’t know really.  
You don’t know.  
I felt left out in the project. |

5.1 Focus group interview: sample transcript

You are very welcome. Thank you very much for coming along, and the first question I want to ask you today is, what do you think of the idea of using a computer game to learn Irish?

It is great.

Yeah, it is alright. It is a good idea.

It is better than books.

It is much better than books, much better than having to go to the back of the book to check the spelling and go back and write it down and it is much easier.

And why do you say it is a good idea Mark?

Because I like games. I play a lot in my spare time.

Yeah, yeah, so you play games at home, do you?

Yeah, I literally live on games.

I usually find it is better, like if it is… they focus more on the computer than they would on a book. Everybody would.

And by 'they' you mean us?

Everybody, yeah.

Well I think it is a good idea because you don’t really care, you don’t really have to write down anything, you can just type it onto the computer. It is much easier.

Thank you. Well the next thing is... do you think… you were doing this project with me for about a month and I was coming in maybe two days a week or three days a week sometimes. Do you think…?

Is it a month?

It is a month, yeah. It went really quickly. Do you think that taking part in this game; do you think it helped you with your Irish?

Yeah.

A little bit. I knew most of the easy words and now I know a few more words because I didn’t know what man was; and that is probably really easy like. It is fir and now I know that gun is guna. I know more than I did…

And all people and what like an airplane was. I didn’t know that…

I know a couple more words now thanks to the game.

Yeah.

Yes, it is helping me with Irish. I didn’t really know that much but now I know a bit more.

Yeah, and do you think did it help you with your reading, with your writing, with your speaking? Which of those did it help you with?
I would say reading and speaking.

Reading and speaking.

The pronunciation.

The pronunciation, oh yeah, very good.

On the other question, what was I going to say? I forget.

It will probably come back to you. What about you John? Was it with the speaking or with the writing or what?

Speaking and the writing.

And do you think…?

I think it was better that it was a mystery game because you learn more if it is a mystery because you have to find out more words.

Right, yeah, yeah. And do you think if you were to compare the way you used Irish in this project with the way you normally use Irish in school, is there any difference between them?

A small bit more improved.

That is good.

Well without… if you didn’t come to this school, on a scale of one to ten I would be around fifty but now I would say I am around eighty.

Ok, and in what way was it different?

It was different because you gave us all new words and we went over words with you and then you kind of gave us like the piggybank things and there were words on them, and we had to write out the reports and all.

Usually we are just reading off a page and we have to find out questions and then… but like is like clues every week and things and we had to try and find out.

So you had to try and find out things yourselves?

Yeah, you had to look places like the air force and in like the house and all and stuff like that.

Yeah. John, anything else?

No.

Can you just try and think now and explain to me what were the different ways that you used Irish during the project? What were the things you were doing in Irish?

We were writing it down.

Yeah.

We were reading it.

We were kind of… we were writing on a page and we were doing it on the computer. So it was better.
And we were listening to it.

**Yeah, and were you talking to each other?**
Yeah, we had to talk in Irish to get points.
We did cupla ceist.
It was actually much easier…well it kind of helped me with my Irish because we had to use chat talk to our...
Friends, and in Irish.

**Yeah, the text chats.**
But you could…most people just used English but you had to…

**Well some people made a real effort to use Irish though, didn’t they?**
Yeah.
I didn’t really use it that much. I was just kind of…
I used it to talk to the other team to…

**And during the project, what was your motivation to use Irish? What kind of really made you use it?**
To know that you would get an award for speaking Irish than to just be taught to speak it and then not.
The same as (5.14), it is a game.
It is kind of knowing that you are not forced to do it and you can drop out, but I didn’t.

**Yeah.**
But like I think that just not as many… because like even though you can’t really do the game unless you use Irish because it is all in Irish. So that is what made me do it.

**Yeah, so you kind of … you had to use Irish?**
Yeah.

**Very good. How do you feel now about using Irish? Do you feel any different about it?**
I feel that I could... it is easier, and it is like I could say things more clearly and then have a conversation in Irish.
Yeah.
Like what I said again, it improved me a small bit but I feel better about Irish.

**What do you mean you feel better?**
Like I feel better, I can pronounce stuff better.

**Ok, you feel more confident?**
Yeah.

**Yeah.**
Yeah, I am not too good at Irish but that game helped me a good bit because it was a mystery and you had to try and find … you had to do Irish. Like you can’t answer in English so you have to do it in Irish.

Yeah, and do you feel a little bit more confident with your Irish since doing it?
Yeah, a little bit.

How about you?
I (6.44).

So do you think you notice any difference in how you feel about Irish after, John?
Yeah, I mean I feel I know a lot more now.

Ok.
Than I used to.

Yeah.
And I can pronounce stuff better as well.

Ok, yeah.
Can I just say something?

Yeah.
It is really weird because people are just having conversation they can express, but when they are talking like and they know someone is recording they talk all serious. It is so weird.

So we will pretend I am not recording it then. Now the next thing I wanted to ask you about, was when I was looking over your questionnaires I noticed some people really said that earning points and getting higher on the leader board was a real kind of motivation for you, it really made you think you wanted to work harder. Other people didn’t have the same experience. Can you tell me what was your experience of earning the points and the leader board and everything? We will start with Mark.
I loved the game and everything and it is good but I think it is just the motivation tool, but like you still get prizes and it is all good, I am just saying…

Yeah, so you think the points and everything is just a motivational tool?
Yeah.

Yeah, ok. Did it work for you?
Yeah.

Ok.
I think the way you could get the trophy and you could get like lots of points for figuring things out; that motivated me.

Yeah.
The first thing that motivated me when we were leading on the last day, when the second last week I think it was, when I got the (8.20) that motivated me. And then in week one I think…

Because on the last day I remember your team; you were working… you actually worked the hardest that day. Was that because you thought you had a chance of winning?

Yeah, kind of.

I knew I wouldn’t be able to win since we lost the sheet and we were way behind everyone else. I just knew…

And then did that make you not work as hard because you felt you couldn’t win?

Yeah, and I knew Maria was going to win because she worked really hard and she was very good at it.

Well the last day I tried my best and like so did the rest of my team, and it was pretty tricky to do as well because...

Well you won though.

We had one day.

Yeah.

To figure out who did it.

But how did you find the points and the leader board in general John? Did you find it made it you motivated or did it…?

Well yeah, it motivated me more.

And the other thing I wanted to ask you was, all the different missions you did; some of them were easy, some of them were hard, and then some of them were really hard; which did you prefer and which made you kind of most motivated? Who would like to go first?

Well...

Philip…

I really got frustrated but it kind of motivated me as well.

So you got frustrated when they were hard, was it?

Yeah, but it motivated me to like keep going because I didn’t want to just give up.

Yeah. So it might have been tricky to get the balance right between not making it too hard so it was frustrating, and just making it hard enough?

Yeah. With the hard levels and all that, my team and me got very stressed out if it was like very hard. Like (10.09) kind of stuff, and so yeah we got stressed out a lot but we managed to do it.

You managed… and how did you feel about it when it was really hard?
When I completed it it felt good, but when it was like in the middle I was like “What is next?”

Yeah.

At one point we had to… one person… there was the one team and one person had to tell the other team what the person was and then they had to...

Yeah, yeah, yeah.

And when we swopped over I had to find the pictures and that was the hardest thing I had to do. I found that really really hard.

**And how did you feel when it was that hard? Were you…?**

I was like “Ok Peter, just do it because I don’t know”…

**So you wanted to give up, did you?**

Yeah.

**Because it was too hard.**

Yeah, I found just typing and (10.56) was very easy.

**Yeah, ok. John?**

I thought that if I just did the easy ones then I would still get the points, but the harder ones like they were much harder to do...

Well they are called hard ones…

**But did you want to work hard at them or did you want to give up because they were too hard?**

I did want to try and give up at the same time.

**Yeah, and the last thing I wanted to ask you is just about the team work. How did your team… what are the different ways your team worked well together or what are the different things you did together?**

Well my team, we didn’t really work well because me and Peter were always like “Oh yeah, I will type this time and you write down, and then you write down and I type” but you see we didn’t really go well… it just didn’t really work.

**It didn’t really work?**

And then with Simon and Kevin, I would say they were the same. So it was literally just me and Kevin, because we were just saying “Yeah, lets (12.01)” and then we would kind of just let Simon and Peter share with us.

**Ok. Yeah, how about you Mark? How did your team work together?**

I don’t like… I didn’t really like the team kind of thing. It was just…

Yeah, because some people kept telling people that…
Yeah, they were like… one time I was just like Sarah was writing something and I was just like moving around. She was telling me to stop, she was really bossy and I didn’t like it. I didn’t like my team. While the other team… my other two…

**Team mates.**

Were ok.

**Yeah, how about you Philip?**

Well I am really independent… well everybody… me, Sean and Luke… we didn’t really…

**So you are used to doing…**

We did sometimes but…

**Yeah.**

Sometimes when you are told to do independent work you want to do it as a group, but when you are doing group work you want to do it independently.

**You want to do it on your own?**

Yeah, I like doing it independently.

**So it was more natural for you Philip, just to do it yourself?**

Yeah.

**It was a challenge to work with the team, was it?**

And then Nathan and that would just come over to the computer and…

**John?**

I was like most of the time I was just moving around. (13.35) team mate wouldn’t touch the…she just wouldn’t let me do it because she wanted to do something and I wanted to do something and I was just on text chat most of the time as well and she kept giving out to me and she didn’t do anything. So she basically got to do everything the whole time and I never got to do anything on it, so…

Well you did get to pretend to be jaws…

**And so did that stop you then from enjoying the game as much as could have?**

Yeah.

**So the last thing really is, as we finish up. Would you have any recommendations of what we could change to make it better?**

A.I. like artificial intelligence for games and maybe you could add like citizens into the game, you could add buildings, you could add like criminals and we could chase them down.

**Yeah.**

Yeah, because is it still in early alpha or is it like a full game?

**No, no. it is very early alpha.**

I wrote it down on the things that you gave us last time.
Last week.
Yeah, I wrote it down as like if you could have a car chase or you were able to fly airplanes or have boats and all that. I think it would be really cool because it would be much better.

Yeah.
Well we were the first people to do this game…

And maybe if I can get someone with loads of money to pay for it, I can pay for all this cool stuff.
Yeah, so the next people that have it, have more…

Hopefully. Yeah, Olivia?
I think that … I think I forget what I was going to say… it was on the tip of my tongue and I can’t remember.

You might remember it, but…
It was a bit annoying the way it was just teleporting. Like kind of like what Mark was saying, if there was like driving around the place and if it was in like a city or that.

Yeah, you mean, would it have been ok teleporting if the teleporting had been instant?
Was it the waiting around for the teleporting that…?
Yeah.
It was the way that it opened, the surrounding and like it would be cool if we had to drive around it and if there was like a map or something and you had to...

Oh wow! Yeah, yeah, yeah.
And you could drive around.

Olivia?
I think that you know the way the first time there was like… it was kind of hard for everybody the first day, and then you made it easier.

Yeah, yeah.
I think you should do that and also work on the graphics maybe.
I liked chasing the cars around but it didn’t really work well.

I know. I don’t know why it didn’t work. Last one, Mark?
I am sorry this is another one. Like you don’t have to add teleporting. Like what you said, if you find someone that has the money for all the cool cars, you could take away the teleporters and just add a huge map. You don’t need teleporters.

Yeah, yeah.
And then you can have like an inventory or go to England.

Yeah, and last question is, would you recommend this for other children to use to learn Irish?
Yes.
I would say fourth and over, not under.

**Not under fourth? So you said yes, John?**
Generally around third and fourth to sixth… maybe secondary school.

**But would you recommend it for older than fourth?**
Yeah.

**Yeah.**
Yeah, like what Mark said.
Like what Mark said as well.

**Ok.**
And maybe first year, if you make it harder.

Yeah, very good. Well I am going to stop this there, so thank you very much for all your help. I really appreciate it.

Appendix F: User Consultation Findings

The themes identified in the data along with some examples of keywords associated with each theme are listed below. These themes are distinct, not embedded and have minimal overlap of keywords. Overall and group theme frequencies are set out in Figure 5.

- Caring: pet, feed, look after
- Construction: make, build, block
- Consumerism: buy, shop, money
- Creativity: customise, dress up
- Goal orientation: mission, mini game, earn, have to,
- Help: hint, clue, help
- Ownership: your own, your design, your person
- Violence: kill, shoot, steal, guns
- Security: private, block user, bully
- Social interaction: friend, talk, group
- Travel: explore, fly, portal
The most frequently occurring theme is seen to be that of goal orientation, followed by construction, consumerism, travel, violence and social interaction. These trends are similar across individual groups, however the variation between groups is statistically significant and will be described in more detail below.

The specific theme of goal orientation was the most commonly occurring theme overall, coming first in two of the three groups, and narrowly outstripped by construction in the other. This theme related to the overall purpose of the 3DVE, see Table 1 for extracts from the data. In the context of learner autonomy, it is interesting to note that these children have a strong awareness of the value of motivation for their learning.

Table 2 Goal Orientation Extracts

G1. Well, you could do … really … fun and missions. Like missions to … get … a trophy or something. … find … something Irish and then .. you have to go to … climb up
trees and … go on a boat if there's a river.

G2. I think [the main thing is] the missions because otherwise some people just go, 'It's Irish. I don't care.' Like they just have no respect for it or something.

G3. Yes, and you get to unlock things and it … nice and fun. You start off with the most of it, like half of it Irish, half of it English and then it starts to get harder and harder as you get to the better stuff and you get money and all that. And hopefully you'd learn.

G4. If you earn points, you can unlock new jobs that you want. …you might unlock a new job, but the highest jobs which get much money and they're more fun, they're like the hardest to get to. But everyone wants to get to them, so they keep going…

Construction was the second most frequently occurring theme, its focus being on building and making, referencing Minecraft extensively. The Consumerism theme related mainly to clothes shopping, possibly a gendered theme among girl participants. The theme of Violence in two out of three groups related to shooting, killing, guns and zombies, making reference to some violent games, such as Black Ops and Grand Theft Auto, along with the survival mode of Minecraft. Three children, two boys and one girl, were responsible for initiating these discussions, suggesting that gender may influence the types of game enjoyed by children. The gender imbalance in the sample, with boys under-represented, may have skewed the relative importance of the violence theme in the data. The low incidence of the social interaction theme (15% of coded sentences) was unexpected. An analysis of the extracts related to social interaction (e.g. Table 2) however suggest that the children may not have commented on interaction as they assumed that multimodal communication would be available and was therefore intrinsic to platform.

Table 3  Social Interaction Extracts

S1. You could have a click…like a kind of, you know that thing that people sign and you talk? You'd have that at the top of the screen, you could click it and then you could type
what you want and then you could go write to everyone who was playing.

S2. And you could get the headphones and talk to people, but you have to talk in Irish.

S3. And like your friend can be in front of you. You could be talking to him across the thing.

S4. And then you can text your friend as well saying…

A number of themes (e.g. ownership, creativity and security) relate to learner autonomy and identity within the world. Upon closer examination, it is clear that several other themes may actually be seen as different forms of goal orientation – making, buying, shooting, feeding a pet, travelling, etc., in addition to the discrete theme of goal orientation, as illustrated in Figure 6. This demonstrates the pervasiveness of goal orientation throughout the children’s interviews. It also suggests that goal orientation has many realisations that move away from pure competition alone and aligns with the fuzzy taxonomy above with goal orientation as a continuous, rather than discrete, variable.

Figure 2 Goal-oriented themes

The findings demonstrate the centrality of goal orientation in the children’s experience of and attitudes to 3D VEs, especially when the goal orientation subthemes are taken into account. In the domain of virtual world’s research, one of the key affordances of this type of environment is its open-ended nature where the users are free to decide what they want to do themselves and are not subject to the type of narrative and goal-oriented constraints which are typical of a game (see De Freitas et al, 2010 for discussion.) However, these findings suggest
that children may prefer a more game-like environment with clearly defined tasks and goals to the open-ended virtual world. This could have important implications for researchers planning on designing a 3D VE for children and aligns with the literature on task-based language learning where tasks with specific parameters structure and drive the language learning (Nunan, 2004).

Again, in virtual worlds research huge emphasis is placed on the social interaction element of participation in these environments (De Freitas et al., 2010; Hew & Cheung, 2010; Jarmon et al., 2009; Peterson, 2011), and this is often seen as more important than having specific goals or defined tasks to accomplish. In this research however, the children did not focus on the capabilities for social interaction in the 3D VEs to the same extent as they discussed different types of goals within the environment. The instances where social interaction was mentioned suggest that children expect social interaction in the environment, but they were more motivated to talk about what they could do and achieve in these environments, rather than on the interaction itself. Perhaps this may be different to older users of 3D VEs, but it is something to take into account when considering the most appropriate 3D VE for young learners. Their comments however would support a communicative approach to language learning (Widdowson, 1978) in 3D VEs as while not emphasised, communication was assumed as integral to the experience.

The findings on security were interesting in that they showed the concerns children may have for their own safety while using a 3D VE. This underlines the importance of making the children aware of the security precautions that have been taken to ensure their safety in these 3D VEs and ensuring that the children’s concerns are allayed before inviting them to take part. In some cases, when ethical approval has been given for a project, the researchers, teachers and parents may be aware that the 3D VE is safe for the children, but this needs to be communicated to the children themselves as they have demonstrated an
awareness of the types of security issues that can arise in these environments (Cooke-Plagwitz, 2008).
