Section 1 Coverscreen & Demographics

IWER: Thank you for taking part in this third wave of the IDS-TILDA study. As you know, this study is interested in learning about the health and well-being of people aged 40 and over. This interview is completely voluntary and private. If we should come to any question you don't want to answer, just let me know and I will go on to the next question. The answers that you give will be kept private and will be used only for research purposes.

IWER: Verbal consent should be negotiated throughout the interview process.

PAT01. IWER Designate type of Interview

1. Self Respondant / Self Respondant with Proxy Support - code 1
2. Proxy only - code 2

Living Circumstance

CS_1_3 **INTRO:** Now I would like to ask some questions about where [you/Rname] [live/lives].
We have asked this question from you before but we are interested in finding out if many people have moved house since their last interview.

[Are/Is] [you/he/she] living at the same address that [you/he/she] lived in at the time of the last interview?

[IWER: State address participant gave at Wave 2 here CS_AddressFF_3 or corrected address is applicable]

NOTE TO PROGRAMMER:

**Total Score - If any single element of CH_41_3 is missing/(blank)/DK/RF/UR
The total score will appear as missing**

4 points: A correct response on request (1 repeat) without any prompts within 5-8 seconds

3 points: A correct response following additional verbal cues and verbal hints.

2 points: A correct response following a display by the examiner of how the correct response should be executed.

1 point: A correct response following “physical prompting” using hand-over-hand, in which the examiner may place his/her hand over the person’s hand, or doing something for the person.

0 points: Person is unable or unwilling to perform the response.

Note: **Scores of 0,1,2,3 or 4 are used for items 1-16 only**
Scores of 0 or 4 are used for items 17-20 with no prompting

I am now going to ask you to do some activities, there are no right or wrong answers and if you need help let me know.

This is will help us to understand how well people are able to follow instructions.

INTRO: Now I would like to ask you some questions about personal choices.

NOTE: If the SR says it is “**someone else**” then ask “**who does choose; is it a relative, friend, or support staff?**” Remember that friends may include neighbours, or non-relative residents, and support staff may include any paraprofessional or professional persons.

No choice should be used in situations where there are no options available to the individual and/or the staff that support the individual in choice-making. An example would be where an individual is not given option of searching/applying/having a job – employment is not considered an option or feasible for the individual and the decision as to whether the individual would like to have a job or not, and what job that would be, is not provided. In effect no choice opportunity is present.

INTRO: We are interested in finding out about the kinds of physical activities that people do as part of their everyday lives. **The next set of questions will ask you about the time [you/Rname] spent being physically active in the last 7 days.** Please answer each question even if you do not consider [yourself/him/her] to be an active person. Please think about the activities [you/he/she] [do/does] at work, as part of [your/his/her] house and garden work, to get from place to place and in [your/his/her] spare time for recreation, exercise or sport.

Vigorous physical activities can be considered anything that lasts at least 10 to 20 minutes, which causes heavy sweating and makes [you/him/her] breathe harder than normal.

For example: running or jogging, exercise bike, vigorous swimming, cycling, aerobics or gym workout, tennis, heavy housework or gardening like digging with a spade or shovel.

During the last 7 days on how many days did [you/he/she] do vigorous physical exercise.

Moderately energetic physical activities can be considered anything that lasts at least 10 to 20 minutes that causes only light sweating or a moderate increase in breathing or heart rate.

For example: gardening, cleaning the car, walking at a moderate pace, dancing, floor or stretching exercises, swimming or cycling.
